TRIGEN®
Humeral Nail System

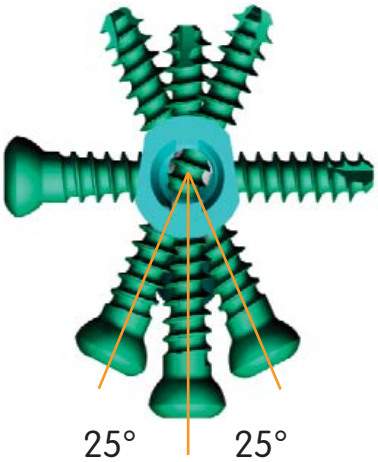

The TRIGEN Humeral Nail provides new possibilities for the treatment of humeral fractures.

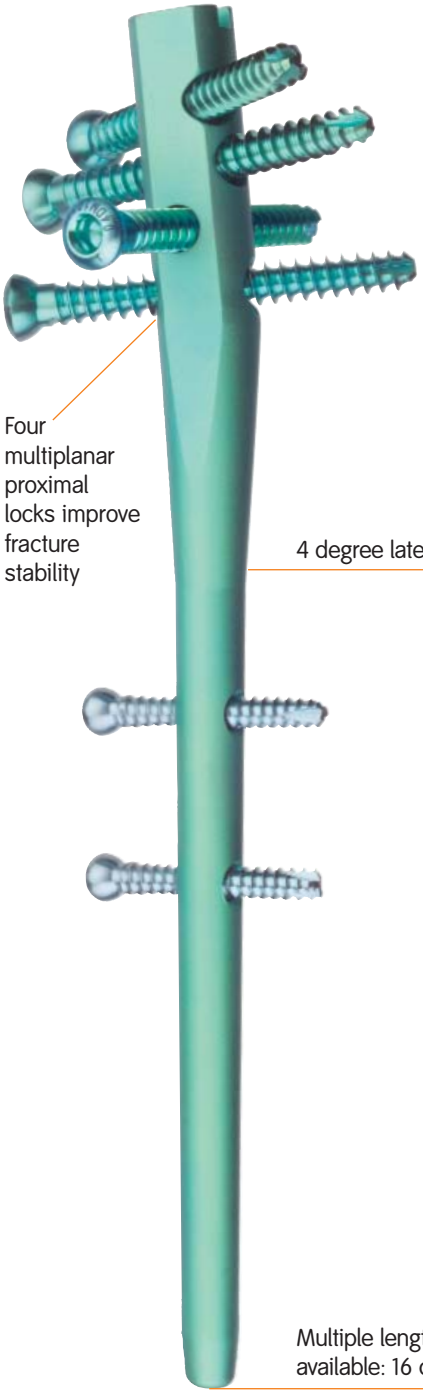

The TRIGEN Humeral Nail System – Uncover an easier and more advanced nailing system

The TRIGEN Humeral Nail provides new possibilities for the treatment of proximal humeral fractures and humeral shaft fractures. With multiplanar screws that are threaded into the nail to inhibit proximal screw back-out, and effective, simple instrumentation that helps protect soft tissues, the TRIGEN System now offers an effective intramedullary nail for humeral fracture management.

Proximal locking holes have innovative threaded design. Screws thread into the nail to help prevent screw back-out.
